Internship Offer Letter

Student Name : Ashish Gupta
Stream : MCA
Branch : MCA
Institute Name : Invertis University
Internship Domain : Google Android Developer
Internship Duration : April 2026 - June 2026
AICTE Student ID : STU68e671c65b35b1759932870

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	Your first Android app	Learn Kotlin basics, set up Android Studio, create your first project, and build a simple Android app displaying text and images.
Week 2	Building app UI	Learn Kotlin fundamentals and build a tip calculator app to manage user input and UI state.
Week 3	Display lists and use Material Design	Learn advanced Kotlin concepts and build scrollable lists using Compose and Material Design.
Week 4	Navigation and app architecture	Add navigation drawers, ViewModels, StateFlow, and responsive layouts.
Week 5	Connect to the internet	Fetch data using coroutines, HTTP, REST APIs, and display images using Coil.
Week 6	Data persistence	Use Room database and Preferences DataStore for local storage.
Week 7	Work Manager	Schedule reliable background tasks using WorkManager.
Week 8	Views and Compose	Integrate Views and Jetpack Compose for hybrid UI development.
Final Credential Validation / Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.
